

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls.

We use our wireless phone for our families safety and to get messages from our daughter when she needs to be picked up from a late night debate tournament. We can't afford more money for expenses wireless plans. This is our only option.

Please consider the infrequent users, lower income users and school age children when you debate and vote on the USF collection system. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Ashley Micklethwaite
